

Mini-hood – HI8F

 Mini-hood for treatment of solvents, smoke, application of glues or small particles of dust. Suitable for small filtration which does not require flow variation, just has to be laid on bench next to the emanations source

- ✓ Constant flow mini-hood
- ✓ Very easily displaceable thanks to its low weight
- ✓ Can be placed directly on the working plan close to the emanation source. It can also be mounted on an articulated arm

Technical data

Fixed flow	240 m ³ /h
Power	85 W
L x H x D	240 x 200 x 300 mm
Weight	2,8 kg
Mains supply	230 V / 50 Hz
Maintenance	Periodic change of the filter

 Used in recycling with an active carbon filter or a particle filter
No external rejection
Possibility of using protection prefilters to lengthen the life of activated carbon filters

Accessories and consumables

Articulated arm BH18

Dust filter FA2

Active carbon filter FC2
