

Electric cable stripper AI-01

AI-01 is a machine with an electric motor. It allows the work of different wires made of various insulators, whose outer diameter can reach 5 mm.

The parameters are very easy to implement.

- ✓ Stripping of conductors from 0.05 to 6 mm², continuous adjustment without changing the tool
- ✓ Progressive adjustment of the stripping length and displacement of the insulation from 3 to 20 mm
- ✓ Pair of spare blades integrated (titanium coating)
- ✓ Low weight and compact construction
