

Heating plate for lost wax casting

We manufacture hot plates dedicated to lost wax foundry. The principle is to provide a work surface that warms and maintains the wax at the desired temperature.

- ✓ Separate thermoregulation unit with 2 displays
- ✓ Resistant design for wax casting
- ✓ Possibility of bucket holders
- ✓ Wax recovery spout
- ✓ The rise in temperature is fast
- ✓ The heating plate is all stainless steel, with 4 adjustable bakelite feet
- ✓ Available in version 2 or 3 bucket holders
